****

R E A D.-

Letter No.C.385-260 dated the 22nd May 1940 from the Director of Public Health in Mysore, submitting for sanction of Government a Comprehensive Scheme for the Underground Drainage System in the Bangalore City Municipality at an estimated cost of Rs.41,24,441

2 Unofficial Note No.263 dated 25th October 1940 from the Chief Engineer, returning the above estimate duly scrutinised

3. Letter No A1.1031/38 dated 16th January 1941 from the Municipal Commissioner, Bangalore City in the matter of financing the above Scheme.

4 Correspondence ending with letter No.C.184-133 dated 5th April 1941 from the Director of Public Health on the subject

****

ORDER NO.L3422-26/M1.90-41-4

DATED, BANGALORE, THE 1st NOVEMBER 1941.

The question of formulating a comprehensive Scheme for the Underground Drainage System for Bangalore City has been under the consideration of Government for several years. A scheme was prepared by the Director of Public Health at an estimated cost of Rs 41,24,441/- together with a detailed report and the same was thereafter scrutinised by the Chief Engineer In the meanwhile, works included in the above estimate to the extent of Rs 12,79,181/- were sanctioned by Government and executed to the value of about Rs Ten Lakhs. Towards this expenditure, the Bangalore City Municipal Council have contributed a sum of Rs 6,68,315/- and the Government have made a grant of 3½-Lakhs of Rupees, out of the provision made therefor in the State Budget under " 30 Grants for Public Improvements" 1 Bangalore City Improvement during the years 1939-40 and 1940-41 The Scheme was sent to the Bangalore City Municipal Council for approval and for suggesting the ways and means of financing it.

(Continued on Page 2)

They have resolved that the Scheme may be approved and the Government be requested to give half the cost of their quota as a lumpsum grant, the remaining amount being advanced to them by Government as a loan towards their contribution, subject to its repayment in easy instalments. On the basis of the above resolution, the Municipal Commissioner has recommended that, excluding the amount already spent on the Scheme, a sum of about Rupees thirty-one Lakhs would be required to work out the remaining portion of the comprehensive estimate, out of which, Government may be pleased to contribute a sum of Rupees Seventeen Lakhs in a lumpsum and the balance, viz , Rupees Fourteen Lakhs given to the Municipality as a loan. Government considered that in their present financial condition, it will not be possible for them to pay such a large amount in a lumpsum, and that the Government grant may, for the present, be limited to a sum of Rupees Ten Lakhs, including the grant already made. Government are pleased to sanction the comprehensive estimate for Rs.41,24,441/- They further direct that, as a first stage, the following works be taken up and completed in two years -

		Lakhs of Rs.
1.	Acquisition of Lands for Disposal Works ...	Rs.2 7
2.	Extension of the Main Sewer .	Rs 3.6
3	Disposal Works . .	Rs 4 0
	Total	Rs 10.3

2. To meet the cost of the above works amounting to Rs.10.3 Lakhs, a provision of Rupees Three Lakhs has been made in the current year's State Budget. The balance of Government share will be provided for by Government in the State Budget for the year 1942-43 The Municipal Council should contribute a sum of about Rs 3½ Lakhs and to meet

(Continued on Page 3)

meet their portion of the cost as above, they may, if necessary, obtain a loan from Government or raise a public loan.

3. The question of financing the remaining portion of the Scheme will be considered after the year 1942-43.

4. The Director of Public Health is requested to take up the above works urgently and complete them before the end of 1942

Government consider that there is need for expediting house connections in the several sewered areas in the City and the Municipal Commissioner is requested to take necessary further action accordingly.

To

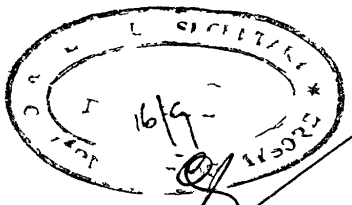
Syed Abdul Aleem, Esq ,B A ,
Secretary to Government,
Revenue Department,
B I N G A L O R E.

Sir,



Subject.- Estimate for Rs 40,880/- for laying the Underground Sub-main sewer line for - preventing sewage from entering Hosakere Tank near Binny Mills

I have the honour to state that an estimate was - prepared for the above by the Engineer Officer, City Improvement Trust Board, Bangalore, as this was an urgent work - The report accompanying the estimate explains the urgency and need for undertaking the work This was placed before the Board at its meeting held on 29-8-1947 when it was resolved -

That the estimate be approved"

I accordingly request that sanction of Government may kindly be obtained to the estimate, the cost on this - account being debited to the lumpsum provision of Rs 1,77,971/- under the "Undeveloped Area" in the Comprehensive Scheme sanctioned in Government Order No L 3422-26/11 90-41-4 dated - 1st November 1941

I have the honour to be,

Sir

Estimate for Rs 4.0 880 for laying the underground sub main sewer line for preventing sewage from entering the Hosakere Tank near Bunny mills

In relating herewith the above estimate, I am directed to state that it is necessary to provide therein ventilating shafts at suitable points to allow the foul gas to escape this may be attended to

The pipe sewer also requires to be continued to a length of about 50 feet beyond the last manhole as the outlet as now proposed is very close to the existing line necessary provision may be accordingly made in the estimate

It is seen from the estimate that, the addition to the levy of Rs 7 8 charges at 12½ %, provision is been made for temporary establishment

3

at 21/2 ofo

This appears to

especially as previous Estimates have been made with unforeseen

charges as "contingencies" & any other charges

incidental to the work will have to be met

out of these heads

It is further recommended that the cost

of necessary alterations to Telephone wires should be

met out of The lump sum provision of

Rs 17797/ must "undeveloped area" in

the Comprehensive Scheme sanctioned in

for. portion 1 11 1941

of the G.O or if any, relevant extract

may be kindly sent for ready reference

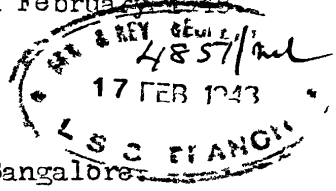
Dated, Bangalore, the 13th February 1948



To

SYED ABDUL ALEEM, ESQ , B A ,
Secretary to Government,
Revenue Department, Bangalore.

Sir,

SUBJECT - Estimate for laying the underground sub-main sewer line for preventing sewage from entering the Hoskere tank near Binny Mills

With reference to your letter No 12274/E dated the 5th January 1948 returning the above estimate with certain observations, I have the honour to retransmit the records after attending to the needful

(i) Provision is now made for constructing three ventilating shafts at suitable points to allow the foul gas to escape

(ii) Provision is also made now for extending the sewer line to a length of about 50' beyond the last man-hole

(iii) The work has to be carried out by the Trust Board for the City Municipality for which 12½% for Establishment, Tools and Plant has been charged The 2½% charged under Temporary Establishment is for the temporary staff to be put on supervision work and survey work The provision under "Unforeseen charges and contingencies" is an emergency provision to provide for items that may arise under actual execution of the work which obviously is not chargeable to either Establishment, Tools and Plant or temporary establishment

2 After making provision for the above additional items of works (1) and (2) the estimate is revised to Rs 41,640/- resulting in an excess of Rs 760/- An extract from the Abstract Estimate for the underground Drainage of Bangalore City included in the Comprehensive Scheme sanctioned in G O No 3422-26/M 1 90-41-4 dated the 1st November 1941 wherein a lumpsum provision is made for Rs 1,77,971/- has been made under 'Undeveloped area" in the Comprehensive Scheme is also enclosed

3 I request that in the circumstances, sanction of Government may kindly be obtained to the revised estimate for Rs 41,640/- sent herewith The previous estimate for Rs 40,880/-

5

with the plans are also enclosed
